DEAN SHERRY NOT RUNNING FOR RE-ELECTION TO SUPERIOR BENCH

Leo Greenbaum Wants New Judge

Kelly Ruled Against Greenbaum

Leo Greenbaum, local produce broker, got into a mixup with Ed Kasviner, Ohio onion broker, representing the California-Idaho Potato & Onion Co., over 6 carloads of onions. Greenbaum advanced $1620 to Kasviner on the onions which were yet in the ground in Idaho, but when time for delivery came Kasviner could not produce. Greenbaum held that it constituted wilfully false representation and so thought the D. A.'s office. A criminal suit was instituted: People vs. Ed. Kasviner, No. 99698 and trial started in Judge Edward Kelly's Superior Court on June 5, 1940, Sam Bristow representing the D. A.

Upon evidence presented by Kasviner, Judge Kelly decided that Kasviner had acted in good faith and that negligence on the part of his employes who got durnk, resulted in the onions rottening in the ground and spoiling thus his business deal with Leo Greenbaum which after all was a speculative deal containing a certain amount of risk. Kelly instructed the jury to find the defendant not guilty on the criminal charge and advised that the matter should be adjusted on a civil basis, instead. The jury so found and Leo Greenbaum has decided to get himself another judge in place of Kelly on the Superior Bench, Greenbaum thinks Dean Sherry is a splendid judge for Superior Court.

To Keep the Record Straight

The campaign ads of Dean Sherry are obviously intended to mislead the Public into believing he is a Judge of the Superior Court.

Instances: **"Judge Sherry's record alone warrants his re-election to the Superior Court, Dept. No. 1"**—Tribune-Sun, Aug. 17, 1940.

"Twice he has been elected our judge by large majorities."—(This adv. has appeared several times in the Union and Tribune-Sun).

Judge Sherry is not now, and never has been, Judge of the Superior Court. He was once a Justice of the Peace and is now a Judge of the Municipal Court.

Truth About Dean Sherry

(From Radio Talk — KGB — Thursday 8:30 pm)

Next Tuesday the polls will be open and you will make your choice by marking your ballots for various officials. I am staying out of this campaign by not announcing any choice in favor of any of the candidate. My sole interest is that the campaign be waged fairly so the people will be sufficiently informed to make their choice. In connection with it I wish to call your attention to the contents of various advertisements concerning the office of Superior Court Judge now held by Judge Kelly. One of the aspirants to that office is Municipal Court Judge Dean Sherry. In an advertisement appearing in the Tribune-Sun of August 17, it is noted that Sherry is asking for re-election to the Superior Court Bench. Since Mr. Sherry never was Superior Court Judge, he cannot be re-elected to that position. It is quite evident also that Mr. Sherry did not have eight years' experience as a Superior Court Judge, mentioned in another advertisement in the daily press. Postal Cards are being mailed out giving the impression that Mr. Sherry was our Superior court judge for eight years. It matters not to me whom you want to elect Judge, whether you want to retain Superior Court Judge Kelly or want to supplant him with one of the other candidates; but what concerns me is that you do not be misled in believing that Muncipal Judge Dean Sherry is runing for re-election to the Superior Bench. I am a stickler for the truth, especially the truth in advertising. Once you know the truth you will know how to vote.

MARIE HERNEY KNOWS BETTER

Speaking over the radio in behalf of Jim Robbins, last Friday night, Marie Herney blamed Supervisor John Faddis for the ever increasing tax rate in the county government. Marie Herney knows, or ought to know that this county cannot continue to increase the welfare relief load without increasing the tax load which pays for it.

Of course, Marie Herney likes Jim Robbins. He is a likable fellow and I did not intend to come out against him, but listening to her harrangue over the radio got my dander up, because it was so unfair and misleading.

Jim Robbins is the guy who tried to stuff down our throats that two million dollar bond issue for **EARTH QUAKE PROOF** SCHOOLS which was nothing but a steal upon the tax payers. We succeeded to lick Jim Robbins in that one. It is not to his credit that he had to be knocked down by the voters to protect the city against this tax steal.

Jim Robbins is a tool of the American Medical Association with its periodical scare hysterias, at present: **CANCER.** All the fake methods proposed by the medical poison gang will not cure or prevent cancer. But it creates a fear psychosis by which these criminal political doctors rob, maim and murder their dupes. Jim Robbins is fool enough, dumb sucker enough to play in with the medically controlled public schools, with the fake health leagues and the medical octopus to scare, poison and destroy the youth by their voodoo medicine .

VOTE FOR FADDIS ! — Remember the two million dollar squander bonds James Robbins tried to push down our throats to "earthquake proof" the schools. Protect your pocket book: **Vote for Faddis!**

Imitation Dictatorship

(From Radio Talk, Thursday, 8:30 pm - K G B)

Before the war in Europe got really under way, Il Duce Benito Mussolini and Der Fuehrer Adolf Hitler had a secret confab in a railroad carriage on a siding at the Brenner Pass. President Roosevelt followed that example of the two dictators and he, too, had a secret confab with the Canadian Prime Minister Mackenzie King, using a railroad car on a siding as their meeting place. The San Diego Union took the following editorial crack at his imitation of European dictatorship methods as follows: **"Conference on a siding**—Just why it was necessary for President Roosevelt to go the Canadian border, hold a conference aboard his private car with Prime Minister Mackenzie King of Canada, & then veil the whole proceedings with mystery by making no definite report on what was said, adds a disturbing note to the general situation in Washington. The conclusion is that Mr. Roosevelt is playing war again."

Trotzky and the Rothschilds

A History of Murders

William C. Bullitt, ambassador to France from the U. S. A., made a blood-curdling speech before the American Philosophical society at Philadelphia, advising Americans to immediately shoulder a musket and start shooting up the Germans. That's the Bullitt who married Louise Bryant, the widow of John Reed, the famous Karl Marx follower who adored the Russia of Trotzky and Lenin.

David Bronstein, the Russian born New York Eastside Jew was sent to Russia upon advice of Justice Brandeis of the U. S. Supreme Court, that millions of people may be murdered in that unhappy country and adjoining territories, like the Bela Kun (another Jew) reign of terror in Hungary during the short lived Communistic regime there. Bronstein, better known as Leon Trotzky, finally met his own doom at the hand of a fellow communist as he was pushing the Fourth Internationale **into the U. S. A.**

Most remarkable contemporary coincident is this speech of Bullitt's, Trotzky's Fourth Internationale and the arrival in New York of "prominent Frenchmen", Baron Edouard de Rothschild, his "baroness" and their daughter; Baron Maurice de Rothschild, a member of the French senate, in Canada.

It is quite remarkable that the men who financed the communistic revolution in Russia and managed the downfall of the French republic, are now finding asylum in the U. S. A. and Canada, while Trotzky, their tool, was being kept as a dangerous individual below the border.

The House of Rothschild has more murders to its credit than any other living dynasty on earth. It made its pile out of the blood of Hessians who were conscripted by the Landgrave of Hessen and sent to fight the American colonists led by Washington for which Meyer Amshell Bauer, the original head of the House, managed to collect two million dollars in gold, that was reinvested in "banking" with branches in Naples, Paris and London, later on in Amsterdam & Bruxelles, dealing in wholesale murder of European nations by hiring soldiers, impressing them for a bribe given the various Princes of Europe who sold their subjects into military slavery to the Jews. That is the origin of conscription, that is why the same Jews want to conscript the American youth to fight for them against Germany.

S. D. Union Reveals War Causes

And why should we fight Germany? The San Diego Union of August 22 tells us why: "To all practical purposes the United States and Great Britain have been closely allied for a half a century . . . Consequently, the unspoken and unwritten alliance between the United States and Great Britain has resulted in the domination of world trade by English-speaking powers. It is against this domination that Germany now is fighting, and it is for the same reason that Japan is flirting with the axis powers . . . "

There we have it in a nutshell! America who prides itself in defending the inalienable God-given rights of every human being and to that effect established a republic embodying this principle of God-given birthright, America has in practice allied itself with England to establish a world tyranny over the non-English speaking nations. When one, further, realizes that under the camouflage of "English-speaking" is none else than the House of Rothschild which controls the "city" of London, or their Wall Street, with all its ramifications in America under the banking titles of Kuhn Loeb Co., the

ECCE SIGNUM! Behold the Sign !

One of the most illustrious persons of our time is Dr. Brown Landone, a near-Centenarian, yet a young man withal (there's a reason), one of those great souls who come now and then to give us their benign help and counsel. His latest book "PROPHECIES OF MELCHI-ZE-DEK in the Great Pyramid and The Seven Temples", published by The Book of Gold, 152 West 42nd St., New York, N. Y. is available for the astonishing small sum of ONE DOLLAR, so that none may be prevented from obtaining the wisdom it contains.

These are exceedingly crucial times and in order to know your way about we can not do our readers a better service than to call attention to this remarkable work.

The stage has been set and all roles have been rehearsed (on the sly) for quite some time in the nation's capital, Washington, D. C. (D. C. nowadays standing for Devil's Cauldron, no doubt) to make War impossible, that is: our escape from it. And if you want to find out how it was done to "make war impossible", that is, your **escape from it,** you will have to catch up with some reading you should have done 18 years ago, when the Pasadenan John Kenneth Turner published his grand book SHALL IT BE AGAIN ?, which was in 1922. In it you will find the whole Wilson account, shameless to be sure, but accurate to the minutest detail nevertheless. The present Viceroy of his British Majesty, ensconced in a supposedly American Capital, is proceeding exactly according to precedent. The tutor should be proud of his eager disciple.

Armistice Memories

When the first world war's armistice was signed at Compiegne and the shrieking newshawks were peddling their shoddy wares on the streets at midnight of that fateful day in November, 1918, hollering "O, how can you sleep" (the putrid goods apparently not selling any too well—because the people were sick of the whole mess), the writer's wife said prophetically: It is really too bad it should be over so soon. Horrified we queried: But why? O, she answered: It would have been a good lesson to have suffered more. We of America are too arrogant, too snooty, butting into everybody's affairs without cause or provocation and are trying to run everybody's world according to our own overbearing, but totally ignorant, opinions, and look, all but a few wise men in the entire rubberstamp congress were taken in by that arch-hypocrite of a President. Do you see now, how an intense suffering would wake these stupid people up, and prevent similar things from happening in the future? Am I not right that only thru pain can these foolish ones be taught to mind their own business and learn to live in peace with the rest of humanity?—Being an F. F. V. (a member of the First Families of Virginia) and as she might have been also a D. A. R. (Daughter of the American Revolution) but refused to become one for the reason that these latter-day daughters were no longer truly of the old patriotic caliber, but merely loud-mouthed militaristic mouthpieces in her opinion, we, of course, referred to her better judgment in these matters, since she should know her own people best and what should happen to them to open their purblind eyes for their own good.—Now, that she is no longer with us, she is being

Washington's Farewell Address

(Continued from last week)

Page F. D. R. ! Sanctity of Oath

"Of all the dispositions and habits which lead to political prosperity, Religion and morality are indispensable supports.—In vain would that man claim the tribute of patriotism, who should labor to subvert these great Pillars of human happiness, these firmest props of the duties of Men and Citizens.—The mere Politician, equally with the pious man, ought to respect and to cherish them.—A volume could not trace their connections with private and public felicity.—Let it simply be asked where is the security for property, for reputation, for life, if the sense of religious obligation **desert** the oaths, which are the instruments of investigation in Courts of Justice? And let us with caution indulge the supposition that morality can be maintained without religion.—Whatever may be conceded to the influence of refined education on minds of peculiar structure—reason and experience both forbid us to expect that national morality can prevail in exclusion of religious principle.—

" 'Tis substantially true that virtue or morality is a necessary spring of popular government. —The rule indeed extends with more or less force to every species of Free Government.—Who that is a sincere friend to it, can look with indifference upon attempts to shake the foundation of the fabric?

"Promote then as an object of primary importance, institutions for the general diffusion of knowledge.—In proportion as the structure of a government gives force to public opinion, it is essential that public opinion should be enlightened."

Phoney Polls and Movie Propaganda

WASHINGTON,—Early in the new deal we warned that a poll organization, then being organized, would prove to be convincingly accurate until called upon by the control to put over misleading propaganda. On the 12th, Senator Lundeen informed the Senate: "The Gallup poll states that Minnesota is 57 percent for the conscription bill and 43 percent against it. That is one of the most fraudulent polls I have ever heard of . . . Our correspondence from Minnesota shows 50 to one, some of it 100 to one, against this proposal . . . I know that the situation in Minnesota is far different from that pictured by this gentleman who gallops through all the front pages of the press." Senator Wheeler and others showed that the poll was prejudiced and conducted with trick and "weighted" questions and gave a distorted result.

In placing an article on the subject from the Milwaukee Sentinel in the Record, Representative L. D. Thill said: "Mr Speaker, too often have motion pictures been used as vehicles to spread vicious propaganda. Too often they have been used to foster some foreign political doctrine. Too often have they been used to disseminate the theory of intervention in foreign wars. Too often have they been used to enkindle the fires of hate and enmity. Let the motion picture producers take heed now before it is too late, that the American public deeply resents the preachment of prejuice and the distribution of insidious propaganda."—James True Associates.

English Kids Better Than U. S. Kids

We loathe the publicity-seeking well-to-do-Americans who have taken English war refugee children into their homes as wards, while American boys and girls can go ragged and uncared for, because their parents are unable to earn a living. Dr. Max A. Goldstein (the name sounds Jewish, doesn't it?) recently stated that there are 40,000 blind, 60,000 totally deaf, 80,000 partially sighted, 300,000 crippled, 3 million hard of hearing and 4 million with speech defects—American kids, mind you—our own boys and girls. With these facts in mind, shouldn't British refugee children be hustled to Canada where they belong, and every American family that takes in a foreign child be socially ostracized? What do you **honestly** think?—Belfry

S. D. Has Splendid Fire Dept.

(From Radio Talk, Thursday, 8:30 pm - K G B)

Last Monday afternoon a fire of unknown origin, pointing to incendiary explosions, broke out in the warehouse and store of Fred C. Silverthorn & Sons. The fire spread so fast that fire department chiefs cannot figure on accidental spontaneous combustion. The whole fire department of the city and firemen on leave were summoned by the third alarm blasts of the whistle of the Gas company at the foot of Broadway. While the property of Silverthorn was completely ruined, building and contents, one cannot help but admire the precision and expertness with which our city fire department prevented spread of the fire to adjoining property. I inspected the stores personally and marvleled how the firemen localized the blaze so that the other stores in the same block had no damage to their merchandise and except for smoke and some water on their floor, were able to resume business immediately after the fire was extinguished. And the heat was terrific when the sulphur in Silverthorn's store caught fire.

I am taking this occasion to express my sympathy to Fred Silverthorn and his three boys. In all the ten years that I have edited THE BROOM I have never heard one word of complaint against the company or any of its members and believe me, people come to me when they are mad at somebody and spill the beans confidentially about this one and that one. I hope these four merchants will continue to enjoy the confidence of San Diegans in years to come and earn it through honest service as they did in the past. They are among the true American Jews who have left old country prejudices behind them and are minding their business in the new world as Americans first. I appreciate this high minded attitude, especially since they conceded me the right of free press and free speech during these critical times when others extended the European hatred and boycott to America and Americans.

Condems Willkie's War Mongering

Editor: Wendell Willkie threw a direct challenge to Hitler in his acceptance speech when he said: "I promise, both in business and in war, to out-distance Hitler in any contest he chooses in 1940 or after. And I promise that when we do beat him we shall beat him on our own terms."

And immediately, over the radio, came back a challenge from Hitler to Willkie and President Roosevelt regarding fifth column activities in the United States.

In all American history, no candidate for president has ever made such a challenge to the head of any foreign power. What did Willkie think he could do against any other government in 1940? He did not qualify his challenge by saying "if elected".

Willkie put himself and President Roosevelt on the spot. He will have to keep quiet or help clean out fifth column activities.

The words in that challenge were the most unwise ever used by any candidate for president. Is Willkie trying to embroil us in war while he will not be in a position to "out-distance" anyone?

Many thousands of peace-loving Republicans were incensed at that challenge and will not vote for him.

Congressman Izac Gets Graving Dock For San Diego

(Political Statement)

Over the concerted and aggressive competition of Los Angeles and Long Beach, Congressman Ed V. Izac, won for San Diego the $3,000,000 authorization for the large graving dock which means the beginning of the navy yard for San Diego instead of for Long Beach.

The battle has long been waged between the two locations and at times reached points of militant aggressiveness. The winning of the navy yard for San Diego will mean investment of many millions of dollars more by the government here and a permanent payroll to bolster the business interests of the city and create employment for many people. The graving dock will be located at the destroyer base. This establishes more than ever the permanence of the navy in San Diego.

Another successful authorization secured by Congressman Izac was for the great seaplane base in the South Bay. The ultimate cost of this will approximate $5,000,000. Three thousand acres will be dredged to a depth of 10 feet. The soil from this is to be deposited on the strand side. On this manufactured site will be erected a seaplane operating base.

The magnitude of the improvements in San Diego harbor, with its millions and millions of dollars on invested government funds and what it means to San Diego, can best be realized from the following chart of actual achievements for which Congressman Izac worked and succeeded in winning approval during his four years in Congress. The grand total is $65,000,000.

1. Dredging program from entrance of harbor to upper bay practically completed: $4,000,000.

2. Authorization obtained for dredging upper bay and all San Diego bay not yet dredged: $4,000,000.

3. Favorable report obtained and plans completed for additional entrance to harbor: $8,000,000.

4. Construction begun on new seaplane base in upper bay. Ultimate cost: $5,000,000.

5. Size and facilities Naval Air Station, North Island, doubled: $12,000,000.

6. Lands and construction projects obtained for Marine Corps rifle range and Fleet range. Final investment: $5,00,000.

7. Marine Corps Base facilities practically doubled: $3,000,000.

8. Increase of facilities and construction at Naval Station: $2,000,000.

9. Obtained new Fleet School at Destroyer Base, additional floating drydock, new sea walls, new cranes, large cruiser graving dock, new barracks, etc.: $15,000,0000.

10. Quadrupled facilities of Supply Depot and obtained authorization for 1,000-foot pier and buildings: $5,000,000.

11. Obtained funds for moorings for men-of-war, extending miles, plus piers and shore moorings: $2,000,000.

Nazis Warn of Sabotage

NEW YORK,—A German radio report heard at the Columbia Broadcasting station said, "the Reich government has proof that numerous British agents have arrived in Mexico and Panama to instigate incidents and commit acts of sabotage for which Germany will be blamed."

"The desperate British government seems to think that she may thus succeed in maneuvering the American people into a fear and hatred psychosis against Germany," the report continued.

No Substitute for Persistence

"Nothing can take the place of Persistence.

"Talent will **not**; nothing is more common than the unsuccessful man with talent.

"Genius will not; unrewarded genius is almost a proverb.

"Education will not; the world is full of educated derelicts.

"Persistence and determination alone are omnipotent. The slogan, 'press on', has solved and always will solve the problems of the human race."—Calvin Coolidge.

America's Menace

America is menaced by a "fifth column". Not the usual "column" chattered about by unthinking people. The most dangerous "column" in our midst is composed of those poeple, a minority, which through influence in some manner or another controls most of the instruments of propaganda; and, controlling them, tub thump for American entry into the European war.

This minority has members who distort facts, promote hysteria, encourage fear, smear all citizens who rise to counsel, "stop, look and listen", as "potential enemies", and generally divide the nation, so that people are set against people in wild confusion.

These individuals, by their activities, undermine our nation's solidarity to preserve its independence, its integrity and its safety, with an effectiveness equal to the gnawing of the Communists, the bunds and the saboteurs of alien nations.— Boak Carter.

RADIO TALK over KGB (dial 1330)

On previous occasions when I invited our younger son, Fred, pupil at Woodrow Wilson Junior High, to take part in these radio programs, Fred had only a few lines to speak. He complained to me about it and asked that he be given longer parts. The response which he evoked from the audience and the comments I heard about his appearance are in his favor, so tonight I invited him again to help me in this program and will turn the mike over to him that he may tell you what he has on his mind or ask what questions he wants to ask.

DAD—Well, Fred, the mike is yours.

FREDDIE—Thanks, dad. My brother David and myself are very much interested to find out things and why it is that after we spend so much time going to school and learning things, then, all at once, we are told that it is not so & we are asked to do the exact opposite of what we learned in school. I will give you an example. We are told that it is wrong to kill people and we are sent to jail if we kill somebody, or they hang murderers, but now the boys who grow up are to be conscripted and they are told that it is patriotic to go out and kill people, because there is to be war. What I want to know is why they do not teach us in school, in a practical way, what makes wars and how to go about it to have no wars. I believe it would be much better to teach us the causes of war and how to eliminate them in a practical way to get results, than to teach us that it is wrong to kill and then, all at once conscript the boys who grow up with such teachings and ask them to kill other boys in other countries who also learned the same lessons, but now must also kill as a patriotic duty. I have asked my father about it and I am going to let you hear some of the answers he has to these questions which are so important to every boy. Every Sunday evening my father conducts religious services in our family to which friends of the family are invited. After he reads the ritual and we answer in chorus, my dad tells us to ask questions on anything we want to know that is of importance and then he gives us the answers. Last Sunday I asked him whether members of our religious association were permitted to go to court to settle their differences. Now daddy, please, tell us again what you said last Sunday during our services.

DAD—Before I give this answer I must make a few introductory remarks. Our religious association is known as the Reorganized Mazdaznan Temple Associates of God. It sounds strange to many because of the foreign words. But there is nothing strange about it once you know what the words mean. The word Mazda is the Iranian word for God, because God is the Supreme Intelligence in the universe and lets His Light shine to guide all the children of God in the right path that leads to obedience and execution of the Will of the Creator and the purpose for which we are here on earth. A Mazdaznan is one who has dedicated his life to the service of the Lord. The doctrine of Mazdaznan is identical with the doctrine of life as taught and exemplified by Jesus Christ. In the true meaning of the word none can be a Christian who dares not serve God and none can be a Mazdaznan who does not serve God. In the scientific religious sense the word Aryan means the same thing as the word Christian or Mazdaznan, it means a Noble Soul who has dedicated his life and his body to the service of the Almighty and is true to his purpose.

For this reason members of this association are all interested in serving the same High Purpose; they subordinate their little personal prejudices to find out the Will of God and obey. Since God is Supreme Intelligence as well as intelligent harmony, there can be no discord where Intelligence prevails and there can be no enmity of interests where people love God and are intelligent enough to understand their own place and purpose in life. Only where people prefer to hold on to their petty ignorances and prejudices, to their hatreds and jealousies, greed and violence, that it becomes necessary to institute courts of law, appoint sheriffs and police to haul offenders before the judge and pass judgment which is enforced by armed sheriffs and keepers of the jails. But among Christians who are devoted to develop their intelligence so they see the reason for everything that men must do, they always agree upon the same principle because it is so selfevident. They find the truth and the truth makes them free. They love the truth and all loving the same thing there is no room for discord. Each does his own little part to make the whole picture materialize.

FRED—If people knew the truth, then, there would be no need for wars? Would there, dad?

DAD—Never in the history of mankind was the truth withheld from the people. Not only have all the fundamental principles been written down in the holy books of the Aryans, the Iranians, the Hindoos, the Chinese, the Jews and in more modern books of the great philosophers, but from time to time men and women appeared who led by example. Of course, many of them were killed, were stoned and were crucified, were jailed and persecuted, but the truth is available at all times for those who want to really know it. I took my time to find it when I was a school boy; I studied all available books on the various religious systems and compared them with each other and in that way I located the fine thread of truth which is common in all of them.

It is of importance to us to know whether God is merely a myth or whether God is exerting spiritual power which actually regulates the occurrences in every activity in this universe so that an equitable balance and order is recorded in the books of time. I put the teachings into practice and found out to my personal satisfaction that God is the power that animates the world and every living being in existence. We have great latitude in wilfully ignoring God and imagining that we can get away with murder even, but that is merely a fool's imagination. The final accounting comes and is inevitable.

Bill Hart's Record

This is an exceptional year in the election of county supervisors, four out of the five supervisors' positions are to be filled.

Usually it is two one year and three the next, but owing to the death two years ago of Tom Hurley, almost the entire board is to be chosen.

In our Fifth district, there are six candidates in the field, five of them out to contest for the place against W. T. (Bill) Hart who was appointed to succeed Mr. Hurley pending the next election. Mr. Hart is running to serve for two years, completing the term.

The big Fifth District covers not only a lot of territory, but it has a vast range of interests, notably agriculture, highways, outside municipalities and the general run of county costs and taxes.

Mr. Hart's qualifications for representing the interests of this vast section are especially fitting. In the beginning he is honest and incorruptible. His next quality is that he is by nature friendly, and thus eminently fitted to work effectively with other board members. He is never quarrelsome nor unfair. He is experienced in public life and as a member of the State Park Board and later the big State Highway commission, he was instrumental in bringing many valuable improvements to the county.

He is personally acquainted throughout the county and has the respect and confidence of influential people in the city of San Diego which would carry weight with other supervisors when the interests of the Fifth District are at stake. He is easily approachable and fair with everyone, and goes to the heart of things on the board on all matters of public policy.

As an evidence of his ability to get things done quietly and without fuss, an example is quoted from the Escondido Times-Advocate as follows:

The recurring flood damage which has closed the Hill avenue section of the Escondido Scenic Drive at Lincoln street during every rainstorm, disrupting the United States mail and school bus service, as well as causing serious damage in adjacent groves and farms, will be corrected before the winter rains set in, according to advice received from W. T. Hart, representing this district on the county board of supervisors.

Correction of this flood damage has been a matter of serious concern in the district for almost twenty years and during that time many petitions have been made to the county supervisors, but without result, the ranchers state. Accordingly, a voter's committee consisting of Clarence S. Meyer, Frank R. Brown, Emil Lemke and Marie C. Cushman was formed to follow up this petition. The committee states that the most favorable action is due solely to the cooperation and untiring efforts of Supervisor W. T. Hart of this district.—Carlsbad Journal.

Monopoly of Land and Water

Editor, The Broom:

If "falling water is a gift from God and consequently belongs not to a favored few," as the Democratic platform maintains, so is land. But no mention is made of this fact by "holier than thou" politicians, who with the obvious intent of "smering" Wilkie, decided to dwell upon falling streams.

We presume that politicians are fully aware of the fact that vast estates are owned by a "favored few" although there are literally armies of tired women and children who do not own the earth in a flower pot, let alone a flower. This is not a pleasant thought. But it seems futile and fatuous to prate about water power in control of small groups when great green acreages remain in the possession of single individuals, who oft-times have no need of them. And, of course, nothing will be done about it.

AN ODE TO F. D. R.

Mr. Roosevelt is my shepherd, I am in want. He maketh me to lie down on park benches: He leadeth me beside stilled factories; He disturbeth my soul; He leadeth me in paths of destruction for the party's sake. Yea, though I walk through the shadow of depression, I anticipate no recovery, for He is with me. His policies and diplomacies, they frighten me. He prepareth a reduction in my salary and in the presence of my enemies, He anointeth my small income with taxes, my expense runneth over. Surely unemployment and poverty will follow me all the days of my life and I shall dwell in a mortgaged house forever.—New Deal Psalm.

"THE MIRAGE"

Arrested for Census Objection
Herbert S. Mace Tells Story

(Continued from last week)

Pleads Guilty

The papers tell the substance of what took place in court; altho the charge was not read, my attorney merely looking it over a minute. The paper said I pleaded guilty to maliciously refusing to answer questions — but I thought I was pleading guilty only to refusing to answer questions.

While I did refuse to reveal certain information—and technically thus to answer questions; I feel that the demand was un-constitutional.

On the other hand, there is a clause stating that each question must be answered to the best of one's knowledge and truthfully. In that respect I feel I completely obeyed the laws—as to the best of my knowledge it is nobody's business whether I own a radio, have a flush toilet, use gas or candles, etc.

The judge gave a little talk; but was not unfriendly and I was put on probation until September 16th; at which time I suppose the case will be closed; but my sister and the minister suggest that they may then put me on probation for several months more. I would consider such extremely unfair—as the law has been complied with—as the law is un-constitutional; as I have already been ill-used; and as there are literally hundreds of thousands of people who refused to answer questions, wrongfully answered them, etc., by various evasions and openingly who have been passed by.

Just what will take place I do not know.

The judge told the attorney that he did not need to appear at the hearing—so, that would indicate that it is to be a closed case without any further probation or sentence. But, with the war hysteria and Roosevelt's bid for dictatorship there is always the chance that they may be attempting to frame me. The prosecutor seemed friendly.

Jail Conditions Rotten

I am still fighting a cold contracted and am still nervous and tired from the shock and strain of it all.

There was a bad draft in the jail. The food was cooked so rotten that I had to down every bit I ate; and then went hungry.

It was noisy, the bed so narrow that I couldn't rest; and it was swiftly destroying my strength and nerves.

I expect half the food goes down the sewer.

While there were all types of men among the officers—I was in a way pleased and surprised to discover what appeared to be a very large percentage of clean-cut, fine looking fellows; and part of those I directly contacted, I believe to be men of high standards.

However, the experience proved to me that our system of courts, justice, prisons is an absolute failure in preventing or curing crime. There doesn't appear to be a single constructive element in the system; such constructive forces as there are being that of a few men in the system whose character, sympathy etc, lift them above the system and give a tint of sympathy and human decency to an otherwise barren, brutal, clumsy system.

I am convinced that my arrest was not the result alone of my refusal to reveal private information; and the letters following—that their insistence on my answering questions as suited them brought on—but that my pacifist stand; my being a conscientious objector in the World War, and my anti-Roosevelt stand played an all important part.

Ogpu Club of Administration

That may not be the case, but little indications and suggestions here and there—prove to me that this could be the case; and that the refusal of others to have answered can still be used against them if at any time they run counter to the will of the administration and the administration has power enough to dare to take revenge by using the census law as an excuse.

I see a great danger in our vagrancy laws, also, as a means of checking anti-Roosevelt and anti-war work by people with limited means.

There is quite a bit more that I would like to mention; but am not able to take time and strength for much of it now.

There were several questions that appear to me to have only one of two purposes; first to card index the people; or second to make more profits for certain parasite interests such as the people given these partisan jobs, and the printers and people selling the paper.

Take the Social Security question; that information is already in the hands of the government.

The questions concerning light, gas and water could undoubtedly have been gathered much more thoroughly and cheaply by records of public utilities and in county records.

The question as to war veterans; with the various suggestions and attempt to organize them into various fighting and witch-hunting groups suggests a desire to have their present names and addresses.

The question on ownership, debts, value of property is in line with the attempt to make people borrow on their property for war purposes as outlined in a letter to one of your papers, of a Senate proposal for such.

The recent new income tax law, taking in lower brackets seems to have been based in information already gathered from the census.

I will apreciate any suggestions you might have to make as to what I can expect in the future from my case; suggestions as to steps to take and things to look out for.

I would also appreciate any information you may have on cases of where census takers have threatened others; have been discourteous; and cases of persons opposing the census—letters to papers, magazines etc. We of course know that millions were not in favor of it—I would like to gather some tangible evidence of such.

I am advised on every hand to lay low; say nothing; do nothing.

I find a spirit of fear and defeatism on everyhand; and people that ought to be out working for peace; for social justice; for the defeat of Roosevelt, who believe Roosevelt should be defeated; who are opposed to war and conscription; but who are afraid to open their mouths for fear of being picked up on some flimsy charge.

It seems to me that now if ever is the time when people ought to be openly expressing their views, and demanding that liberty of speech, press and religion be kept sacred; that it in no way be infringed on.

Newspaper Reports Sympathetic

Thanking you for your interest.

I would like also to mention that the Los Angeles Times reporter was especially sympathetic and courteous; & that many of the news papers gave my case a sympathetic write-up. I haven't seen many of the reports, will be glad to receive clippings—but have heard from various sources.

I believe that an attempt was made to use the census as a partisan campaign organization. If you have definite information on the rules governing the selection of the workers I would appreciate such.

And I believe it is possible that the Republican candidate for president, might be interested in my case if his attention were called to it by someone other than myself; and that he might be interested in making a study to see if the census is and has been used for a Roosevelt campaign organization.

Naturally, I do not wish to rile the court—but felt you would be interested in these facts and would know how to best use them; and what to leave un-said and what to say if you at any time wish to say more on the census question.

Yours respectfully, HERBERT S. MACE.

Silence of Gandhi Wins Commendation

Editor The Broom:

It is said that once a week Mahatma Gandhi maintains silence throughout the day and never deviates from this policy. Even when arrested and his wife and friends wept, the East Indian remained quiet and unmoved. He found security in silence.

Why do not people in general, including politicians, recognize the value of occasional silence? Long-winded law-makers are already busying themselves hurling vocal mud balls at their opponents and, in so doing, losing what little prestige they may have. It would seem advisable for some of them, at least, to recall the wise words of Abraham Lincoln, "Better remain silent and be thought a fool than to speak and remove all doubt."

EDMUND K. GOLDSBOROUGH.

FOLLOW THE LEADER

Follow the leader, THE LEADER WITHIN
Heeding His bidings we cannot but win.
How could one stumble held by His hand ?
Sooner or later His foes must disband.

Happy the one who follows His leading,
Trials and troubles will be receding,
Joy and enchantment now are his lot,
While all His foes are put on the spot.

Prevention Rather Than Cure—Best !

"Our policy should be to prevent these European wars if we can, and otherwise to stand aside while the nations of Europe find their own destiny. We must stand aside if for no other reason than that one strong western nation be left to preserve the flame of civilization."

—Charles A. Lindbergh.

PROPAGANDA MUST GO

The cymbal strikes
And the bell's hard gong
Goes clanging through the night.
The air is tinged with acrid smoke
That rolls as swiftly moving clouds.

A beam is made to point due West;
Another spears due East;
And clouds rise where light was born;
From a lacy tower in the sky.
And light does change this looming vapor.

Peace, be still, the heavens open!
Let this layer hold Godly words!
While races spread a love unborn.

Pour no wrath upon this air,
Or change that which is so;
But let the sky be cleared of clouds,
Of smoke, of spears on passing waves.

—J. Stanley Henninger.

SUGGESTION

Editor: If we must have conscription on a $21 a month basis—

Why not draft those who hold large blocks of stock in large enterprises and have large holdings in government bonds? They have a fixed income sufficient to care for their families, whereas the men on small weekly or monthly salaries could not care for their families on $21 a month.—R. W. BURNSIDE.

Price of Liberty: Eternal Vigilance

As true today as when written 150 years ago:

"It is the common fate of the indolent to see their rights become a prey to the active. The condition upon which God hath given liberty to man is eternal vigilance; which condition if he break, servitude is at once the consequence of his crime and the punishment of his guilt."

—John Curran—1750-1817.

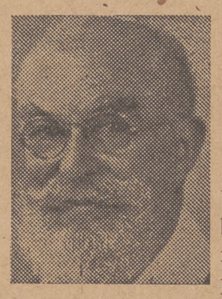
ARTIFICIAL FABRICS

It may be that Mother Nature will have the "last say" regarding the use of synthetic materials to take the place of "natural" materials.



Dr. Geo. Starr White

All sorts of wearing apparel is being made from a waterproof material made from glass, or from a material that looks like glass, and is almost transparent. Suspenders; garters; belts; bust-supporters; bust-forms; bathing-suits; protectors for infants' wear; etc. are being put on the market in great profusion. I am beginning to see very peculiar skin conditions that are far from healthy, caused by the wearing of just such materials.

Whether this condition be an "alergy" or not, time only can tell. It is important to give a word of warning just the same, for the skin malady has been diagnosed by some laboratories as "syphilis". When the condition has progressed about so far, the laboratories find a "four-plus reaction for syphilis"! In such cases, after the garments, or artificial material is taken away from the victim, another laboratory will "find" the case "negative to syphilis".

Wrist watches are being worn by many, using the new-style made-of-glass fabrication. The names are something like "elastic-glass", or some fabricated name indicating "fabricated glass".

The public should be on its toes against being "sold out" to laboratories and "health" boards thru the use of materials that are made from "by-products" discovered in the manufacture of war-munitions, or some other life-destroying materials. Nature will have the LAST SAY! The public should not help the vivisectors and serum-squirters by self-infecting thru the use of materials that can KILL just as easily as not. Using frogs; rats; mice; rabbits; pigs; dogs; cats; and indigent children as experimental materials, are being so carelessly used for testing this and that serum or vaccin, that we must be ever on the alert that the processes of "testing" do not kill us off faster than other kinds of bullets, or "explosives".

The Spirit Willing, The Flesh Must !

By LILLIAN R. CARQUE, Director
NATURAL BRANDS RESEARCH FOUNDATION, Glendale, California.

Procreation is a mere expediency through which Nature, for its manifestation of life, obtains renewed opportunities to bring evolving lives into new forms and combinations. While the processes of life are personal, its motive is universal. Sex life and indulgence is for the benefit of the race, not for the individual. Passions, moods, propensities, in any and all of their degress of power, can and must therefore be subject to self-control. The Spirit Willing, the Flesh Must! The last farthing of emotional excess must be paid before the task of evolution is finished—the last appetites of the flesh must have lost their power before the beast of prey can be tamed and subsequently converted into a beast of service, constructiveness and usefulness.

Recent scientific researches have shown that those foods which introduce much uric acid into the blood were a source of erotic stimulation, due to the irritating influence of uric acid upon the genital mucous membranes. Uric acid is a normal end-product of protein metabolism. This is especially true of flesh foods, for besides forming uric acid by decomposition of their protein, uric acid is an intrinsic part of their composition. For those who feel unable to dispense with meat, lean beef and mutton or lamb broiled or roasted are tolerable in small quantities and not oftener than once a day. Pork, game, sausage, goose and kindred animal food should be abstained from by those likely to be tormented with lewd suggestions and erotic yearnings. Certain sea-foods contain even more uric acid than does meat. Oysters, crabs and other shell-fish are of this order, and should be avoided by all those who have difficulty in controlling amorous desires and in disciplining thoughts.

Editir's Note: Lillian Carque is very much mistaken; sex life and indulgence is **as much for the benefit** of the individual as of the race.

GOD'S MOB

They live on every corner,
In every cave on earth,
God's mob who home—and landless
To accident owes birth.

They crowd the hill and wayside
A burden to themselves,
Accomplish very little,

HAND-WRITING ON THE WALL

O France has fallen, mighty land,
So high among the nations!
Then let us fear we too may fall,
Though proud of our creations.

When people are well-fed and gay,
Then danger is forgotten.
And yet we may be growing weak,
Our politics quite rotten!

Upon the west, true danger lies,
The Japs with all their fishing.
Upon the east and on the south,
Remember Hitler's wishing!

Information on Primary Election

(From Radio Talk, Thursday, 8:30 pm - K G B)

From Carlsbad, up the coast, I received the following request which shows what influence this radio program exerts among certain sections of voters. "Having the pleasure to hear you on the radio Thursday evening, would like to receive a copy of your paper regarding the primary election. I approve of your high ideals and wish you success with radio broadcasts and THE BROOM." Of course, we mailed him a copy so the voter will know our editorial attitude in the election.

Willkie Man of Destiny—Belief !

"I believe Willkie is a man of destiny, and he has a 50-50 chance of making the grade; but in any event he will not stay in the picture long, whether elected or otherwise. If elected he will be a martyred President. As I have stated many times, the Vice President is the man to watch in the coming election, not the President. But root for Willkie, for if elected he will do some fine work before he is put out of the picture. Whoever is elected will not live beyond one year in office. I favor Willkie, because he will help to smash the New Deal political machine, and make it easier for his successor, the Vice President, to function."

—William Kullgren, Atascadero, Calif.

Students at Michigan State college can throw in the nearby Red river any faculty member whom they find violating the no-smoking-on-the-campus tradition. Dr. Robert S. Trotzky and the Rothschilds

(Continued from Page One)

Warburgs et als; it is quite plain, then, that as financial rulers of the English speaking countries these Jews have established themselves rulers of the world commerce and Germany and Japan is fighting for **the God-given inalienable rights** of smaller nations to their due share in this world commerce.

Is it not remarkable that the U. S. A. would not have and did not countenance the presence of Leon Trozky here, but opens wide its arms to the bloody Barons of Rothschild and their offspring who have to account for more murders the world over, for more cripples, more misery and poverty, than poor Trotzky could ever have committed?!

And Ambassador Bullitt is the very man who drove France into the war as he is now trying to drive our youth and our country to an early doom. For, mind you, the San Diego Union admits that Germany and Japan are fighting for the very principle embodied in our own Declaration of Independence from the British yoke of Judah, namely that God has endowed all men with certain inalienable rights;—and in the pursuit of those rights, you may rest assured God is on the side of the people who demand them and God is not on the side of the oppressors.

You can see, that sometimes even the San Diego Union tells the truth in a nutshell and prophetically anyone must realize that nobody will ever succeed in holding down the smaller nations to be readily exploited by the "English-speaking" Jews, the Warburgs, the Rothschilds, the Baruchs, the Morgenthaus, the Ruse-velts, etc.

JEW, GRANDSON OF ROTHSCHILD

Sought Rule After Fall of France

VICHY—An attempt by Georges Mandel, minister of interior in the Reynaud cabinet, to seize power soon after France's capitulation last June and continue the war from Africa was reported in a Tangier (Africa) dispatch published in Le Temps.

Mandel now is facing trial before a military court on the charge of plotting against the security of the state.

The Tangier dispatch alleged that when he arrived at Casablanca from France with former Premier Edouard Daladier and other ex-ministers aboard the steamer Massilia late in June, he tried to convince military authorities in French Morocco that he had been placed at the head of a new government whose purpose was to continue the war.

INTERNATIONAL BANKERS HATE WORLD DISARMAMENT

That the present war is not hapinstance but deliberately foisted by the International Bankers for their own profit and the enslavement of the American people is reported once again in the National Whirligig Column under its New York date line, by Richard Waldo and Gabriel Vogliotti:

Courage

It may be fifth column to end all fifth columns but the Manhattan diplomatic crowd thinks we are overlooking a trick rearmament angle. Some of them opine we will never reach 50,000 planes, and will not spend more than 20 percent of our allocated billions, because peace will have overtaken the program.

The thought of a disarmament conference in the event of a negotiated peace is more than a talking point among those who see post-war Europe bankrupt, whether under Germany or Britain. Perhaps as a diplomatic teaser, or even as bona fide economics, Nazi Dr. Schacht has evolved on paper an industrial chart for demilitarized factories, in the frame of a demilitarized world.

Bankers who toy with the possibility of an authentic German offer to scrape war tools, land, sea and air, see such an **economic slump ahead** they doubt that any administration would have **the courage to face** the immediate dislocations, even with an ultimate bonanza in sight.

World Federation Center for Japan

Dear Mr. C. Leon de Aryan:

Your paper of the 24th June had come. It was rolling here and there. This morning I took it up, happened to read your "Radio Talk" on its 4th page. I read it out. I came across the word Mazdaznan. I saw a bit more of this number, found the name of Mr. Beckwith of Stockton in whose "Forum" I spoke too, once, but next when I saw him he was not interested in my views, at least he gave me that impression!

I was once in the Aryan colony of Mazdaznan in 1919 near Zurich. All these flying thoughts made me write this card. If I shall hear from you I shall write more. But in any case I am sending you our circular, it speaks at length for me. I shall also like to hear your views on it. I am interested to have One World Order, based on justice for all. But of course the problem is how to bring it about and by what means? A Faith or a Race, through war or conference? Who is to act and how?

I have been dealing on the subject for the last ten years and more. Maybe we cooperate.

Yours sincerely, MAHENDRA PRATAP.

The British Rule U. S. A.

August 15, 1940

My dear Mr. Pratap:

Your card of July 22nd at hand, ushering in the Leo month, where I appeared again upon this planet August 18, 1886.

Have read several of your World Federation Circulars and being a world traveller as well as student, I can well place you, your type and your work. In that line of work we could hardly co-operate since I belong to the branch of the Aryan family which does not look to force for the solution of human problems, nor to international intrigue in the hope that in the resultant upheaval this or that nation of imbeciles might get it's freedom from British, French, Dutch or Jewish Raj. Liberty is not achieved in that fashion.

The U. S. A. declared itself independent from the British Raj, but today the descendants of the Founding Fathers have deliberately placed themselves under the British Raj and given up their independence. Through the gold and silver buying process the U. S. A. is financing the Jewish-British war upon Germany and her allies. The commerce of the seven seas has been surrendered to the same combine, the U. S. mails are being looted and the youth of the nation is to be conscripted to impose the Jewish-British Raj again upon the German people. The House of Rothschild rules supreme and its members are taking bodily refuge in the U. S. A. to better enslave its people.

This proves conclusively that all the work and sacrifices of the Founding-Fathers went for naught. The descendants are not fit to govern themselves and the British took over again.

As a member of the Mazdaznan line of the Aryan family I am well aware of the futility of "liberating" peoples who are not free spirits, but yet slaves of their own Karma of indolence, stupidity and violence. There is no way of producing another World Order than the one that already operates in this Universe, the unfailing LAW of cause and effect. It is neither a Faith, nor a Race, neither war nor conference that will make people grow up spiritually to maturity where they do not want to get something for nothing, reap where they have not sown, expect heaven, prosperity and freedom by the cannibalistic way of slaughter.

Only in the measure that each individual surrenders to God and devotes his life to know the nature of the Divine Will and with joy embarks upon its execution, that individually and collectively, freedom, justice and selfrespect, coupled with respect for the self-same rights of his fellows, becomes a reality. Any other way is a waste of time.

The period for the bringing up and growing up of the entities who are assigned to material activity upon this terra firma is not limited to two scores ten years. Neither to two scores ten, incarnations. The process is almost in its infancy yet, so why expect intelligence and maturity from infants and half wits.

Take your time and don't try to rush the process. Twenty centuries ago the Master of Nazareth pointed out the path to ONE World Order. Twenty Centuries hence the dream will be partially fulfilled. Until then one must wrap himself in the habiliments of wisdom, do his part faithfully, bear his cross, carry it stoically through the abuse heaped, but striding forward with a stout heart in the service of Him who rules supreme.

Sincerely yours, C. LEON de ARYAN.

TOCSIN—anti—Toxin

(Continued from page One)

spared the awful pangs and terrible inner misery which were caused her by the stupidity, the slothfulness, the gullibility, the sanctimonious hypocrisy with which she blamed her own people, who, she lamented, care for naught but their appetites and joys of the orifices — The spirit within given hardly a thought.

To Mr. Wendell Willkie

Since you asked this writer for his continued support as a material aid in bringing victory in November, we shall be glad to co-operate, not by being a mere shouter and subservient follower, but by being a way-pointer.

May we ask, have you perused the book already mentioned, Shall it be again?, by Turner, published by B. W. Huebsch, New York?

It will give you the Wilson slant, and you will find out, perhaps for the first time, exactly "How Great He Was". For, if you get Wilson's measure, you will also get the true measure of his protege, Roosevelt.

Next: Have you studied your own Indianan, Carl H. Mate's Book, THE NEW DEAL GOOSE STEP, published by Daniel Ryerson, Inc., 155 East 39th Street, New York City? You will not get it at any of the regular book stores; the Jew-book-combine has seen to it to keep it, and other equally important books, from being made accessible thru the usual and regular channels of distribution.

Next: Have you read, studied and perused thoroughly DEMOCRACY and WORLD DOMINION by Edwin D. Schoonmaker, published by Richard R. Smith, 120 East 39th St., New York? Your Acceptance Speech does not reveal that you have. Wherefore, since you ask for our support, we suggest that you become familiar with this book. After you have studied this splendid work, you will know why you are wrong about Hitler and will begin to realize that you haven't known anything whatsoever about the existing MENACE OF JEWRY.

Before saying goodbye for today, permit us to quote from Dr. Landone's books, mentioned at the outset:

"Democratic governments have become broadcasting stations for spreading personal propaganda to promote the welfare—not of the nation—but of the individuals of legislatures or congress! Hence, we have dictatorships. For if democracies had not been too weakened by talk, to solve present economic problems, no present dictatorship would have been established. And we continue to have wars upon wars, because we have not found a means of using idealized action to prevent them. Today, 400,000,000 people want peace and talk of peace—but are too weakened by talk that they are powerless to prevent war, when it is desired by a few men of action. Wordly diplomacy—ALL TALK."

POLITICS AND THE BENCH

Mr. Ralph W. Wallace, 710 San Diego Trust & Savings Bldg., San Diego, California.

Dear Mr. Wallace:

After reading the results of the plebiscite, I am impelled to write you, as Chairman of the Committee on Judicial Candidates.

It is not to be expected, of course, that all members of the Bar will give the attention to their answers that the serious implications of some of the questions should demand, but we should not expect 42 per cent to 48 per cent of the votes cast to be explained by carelessness. It occurs to me that no person should ever be permitted by a secret ballot to register an attack upon the honesty and integrity of any person, be he a candidate for judicial office or not. The consequences are likely to be serious without any opportunity for redress on the part of the person injured.

I refer particularly to question No. 14 in the first list and question No. 18 in the second. The answers of the Bar to these questions, if believed, should compel the Bar to cast its vote unanimously against the endorsement of every one of these candidate because no person can possibly be qualified for judicial office whose reputation in this respect is bad in the minds of over 40 per cent of the Bar. Any person who is willing to express such an opinion should be willing to stand upon proof of at least one specific instance tending to support it.

If this question is to be included in future plebiscites, it seems reasonable and just that it should be presented in a manner to require any person voting in the affirmative to disclose his identity, to the end that the basis in fact for his answer might be inquired into. However much the Bar may desire it, these questionaire results can not remain secret from others than members of the Bar; and if they could, serious injury could result from the answers among the Bar itself.

It must be perfectly apparent to the majority of the Bar that none of these candidates deserves the contemptuous criticism implied in the affirmative answers to this question. If any have good reason for such an affirmative vote, the facts supporting it are of the utmost importance to the Bar and to the public, and ought to be the subject of investigation. The Association can well call upon all who voted in the affirmative to make themselves known.

This suggestion is submitted for such attention as you and your committee and the Association may find it deserves.

Very truly yours, JOHN COKER.
